Download the Beach Hop 2006 FREE Screensaver!

Justin Hansen has put together this fantastic screensaver program containing about 50 never before seen photos of the 2006 Festival. The file is about 6mb in size - doesn't take too long to download on broadband. Save the file to your desktop then run the application. We've tested it and it is virus, spam and pop-up free. [CLICK HERE](#) to start the download.
