BEACH HOP 2007 ULITMATE PASSES SOLD OUT!

Christmas Day 2006 saw all 300 Ultimate Passes for the 2007 Festival completely sold out. We are extremely happy with the response of these passes as it has created cash flow that the festival needs to survive. It also means we can get the T shirts & swing tags printed, which really makes Beach Hop 2007 a reality.....

Of course there is a an unlimited number of Standard Passes available and these entries are well ahead of last year. [CLICK HERE](#) to enter your car online or [CLICK HERE](#) to download an entry form that you can print out and post in with your payment.

We are just doing some sums now to calculate how many Night Cruise passes are available for purchase to Standard Entry holders. You have the choice to purchase a Night Cruise pass when you enter. We are going to limit the number to 500 cars, with the Ultimate Passes making up about 220 of these (this is why we are doing our sums!). We will notify the number of Night Cruise passes available shortly.

Incidentally, only 50% of those who have purchased a Standard Pass have indicated they wish to do the Saturday Night Cruise. We expect that entrants are happy to park their cars up at night and come into town to enjoy the fantastic entertainment we have in store. We fully support this attitude, as while the Night Cruise is a great part of the festival, we spend a huge amount of money to bring you the very best entertainers from NZ and Australia. The Beach Hop isn't just about the cars - it is about the 50s & 60s and after 9pm the cars are put away and the party begins....
